5.27	Explain the need for the South and Tennessee to move toward industry and mechanization after the Civil War and identify examples of the effort, including Coca Cola bottling in Chattanooga, mining on the Cumberland Plateau, coal and iron processing, the growth of urban areas, and the increase in railroads. (G, E, H, TN)
5.40	Analyze the major goals, struggles, and achievements of the Progressive Era, including attacking racial discrimination, child labor, big business, conservation, and alcohol use: (C, E, P)
5.41	Describe the effects of Jim Crow Laws on the nation and Tennessee and the efforts of Ida B. Wells and Randolph Miller to bring attention to the inequalities of segregation. (C, H, P, TN)
5.50	Use specific textual evidence from primary and secondary source to summarize the success, failures, and challenges of President Roosevelt's New Deal policies, including: (C, E, G, H, TN)

Science Standards and Codes

All 5th grade Science questions relate to the Tennessee Science Academic Standards.

These standards were revised by the State for School year 2019-2020.

More information concerning these Standards can be found at the State Standard Website:

Science Code Matrix

Code	Outcome
2.LS3.1	Use evidence to explain that living things have physical traits inherited from parents and that
2.133.1	variations of these traits exist in groups of similar organisms
5.ESS1.2	Research and explain the position of the Earth and the solar system within the Milky Way galaxy,
	and compare the size and shape of the Milky Way to other galaxies in the universe
5.ESS1.3	Use data to categorize different bodies in our solar system including moons, asteroids, comets,
3.2331.3	and meteoroids according to their physical properties and motion.
5.ESS1.4	Explain the cause and effect relationship between the positions of the sun, earth, and moon and
J.L331.4	resulting eclipses, position of constellations, and appearance of the moon.
5 5004 5	Relate the tilt of the Earth's axis, as it revolves around the sun, to the varying intensities of
5.ESS1.5	sunlight at different latitudes. Evaluate how this causes changes in day-length and seasons.
5 5TC2 4	Use appropriate measuring tools, simple hand tools, and fasteners to construct a prototype of a
5.ETS2.1	new or improved technology.
F 162.4	Distinguish between inherited characteristics and those characteristics that result from a direct
5.LS3.1	interaction with the environment.
5 504 4	Analyze and interpret data from observations and measurements of the physical properties of
5.PS1.1	matter to explain phase changes between a solid, liquid, or gas.
	Explain the cause and effect relationship between two factors (mass and distance) that affect
5.PS2.4	gravity.
