

Corrected Question List for 2020

Here is a list of corrections for questions we have found since publishing the Handbook. These corrections have been updated in the Handbook and in the Data base.

You can choose to fix this by hand-correcting each affected question in the book, reprinting the affected pages, or re-printing the entire book.

We will add any new questions, which have been corrected, to this list as we find them. The newest changes will be at the top of each grade section.

4th Grade

Page 27 in the Government Section 1st question from the top concerning confirming cabinet members: Was deleted due to being a duplicate question.
